

GUIDE WORDS

A dictionary has two words, called guide words, at the very top of the page. The word on the left is the first word on the page, and the word on the right is the last.

To find a certain word, see if it comes between the guide words in alphabetical order.

Root words come before words with affixes.

Number each column in alphabetical order. Then underline all the words that come between the guide words, which are marked with an asterisk (*). (46)
